The Collector's decision in the case in question is therefore affirmed."

WASHINGTON, July 25 .- On the 15th of June, San Francisco papers contained the statements of certain survivors of the disaster to American vessels at Samoa, enlisted men on the Trenton and Vandalia, which, if true, presented a severe indictment against the authorities of the country, especially of the Navy Department, for cruel treatment and heartless abandonment of the suffering seamen. The papers practically indorsed the statement of the men, and reported that about 30 of them were roaming around the water front of Sau Francisco, unable to secure the wages due them, destitute and dependent upon charity category of waste but should be classified as about 30 of them were roaming around the for their subsistence. The charges by the men were, in substance, that they had not been paid the bag money-\$60-which the United States contracted to allow them in case of loss of their clothes by sinking of the vessel; that their wages prior to the date of the disaster had not been paid them; that they had been discharged, sent adrift, none of them with more than \$25; that the clothes furnished them in Samoa had been charged for at regular rates, leaving them little or nothing to live on after the cost had been deducted from their pay; that Lieutenant Carlin, executive officer of the Vandalia,

HAD REFUSED TO SIGN a certificate for one of the seamen to be pre sented to the Fourth Auditor, by which he would be enabled to procure his "bag money," and, finally, that when the men disembarked from the Rockton on arriving at San Francisco, they gave three groans for Captain W. H. Farquhar, of the Trenton, and that they were deprived of what was due them by subsequent action taken by him in a spirit of revenge.

Copies of the newspaper articles were sent to President Harrison and six of the sailors joined in a petition to Secretary Blaine, asking that he use his influence to have justice done them. Attached to this peti-tion was a copy of one of the newspaper articles. These referred to Secretary Tracy, who ordered that an investigation be made as to the truth of the statements. The pa-pers in the case have just reached the Navy Department and make the following show-

ing:

Commodre A. F. K. Benham, of the Mare
Island Navy Yard, says that the newspaper articles have a grain of truth in them and a
great deal of exaggeration; that the attack
upon Lieutenant Carlin is unjust in the extreme, upon Licutenant Carlin is unjust in the extreme, for the reason that he remained in San Francisco by his own request, and was temporarily assigned to the receiving ship Independence, in order that he might be able to look after the interests of the Vandalia's men and aid them in obtaining an early settlement of their claims.

He further furnishes a statement made by Lieutenant Burnett, showing the amounts paid to the men who reached San Francisco, 68 in all. These range from \$26 Si to \$272 08, in no case being as small as the largest amount said to have been paid the men. Eighteen of the men are reported as having described after arrival, and of course they received nothing.

Lioutenant J. W. Carlin states that of the 19 Vandalia men three were discharged at the expiration of enlistment, three were discharged by sontenee of court martial, and 18 were describer. The clothing issued to the men at Samoa was charged to them at a discount of 66 23 per cent. It was good clothing worn by officers and men alike.

As to the bag money it is stated the Government does not sign a contract to pay \$50. It does promise to pay as much as \$80 on certain conditions. The Lieutenant says: The claims of the men were excessive as a rule. A seaman shipped in January and wrecked in March can justiy claim his pay for the two months, and no more. If he has drawn \$60 worth of clothing be is in debt for at least \$12. Captain Farquhar could not and did not have an order regarding the amount of money to be distributed to the Trenton men. The amount of money actually allowed was one month's pay, and the sailor who complained that Lieutenant Carlin refused to sign his application to the Fourth Auditor was told that it was useless to make the application until that official was in possession of certain data, which could not possibly be furnished before the last of July, but refused to accept the statement as final, whereupon the Lieutenant had obtained a blank to be signed.

Attended to the first the statement as final, whereupon the Lieutenant had obtained a blank to be signed.

ATTENDED TO THE MEN FIRST. He further says: "As to the statement that I would have no time to get his money until I

got mine,' I will only say that I am here at my own request for the special purpose of putting the various records in shape so that the Fourth Auditor may properly settle the men's ac-counts. This work is now finished; applications for identity (otherwise known as 'bag money') have been made out for all the men, dead or alive, and I have as yet taken no step toward retting my own money."

alive, and I have as yet taken no step toward getting my own money."

In conclusion he says: "There are six names signed to the letter to the Secretary of State, viz: McClusky, Steward, Devine, Bleidner, Lane and Boyle. McClusky was not at Sumoa at all. I ane was discharged by court martial. He was on board the Nipsic, which was not sunk, and he has not the shadow of a claim for anything. Boyle and Steward were discharged by court martial. Bleidner and Devine were discharged at the expiration of enlistment. All of them except Boyle will be paid in full. One of them had a claim for loss of personal effects. O'Donnell, the other man mentioned by name in the newspapers, was discharged by sentence of court martial. The only men entitled to sympathy are Johansen and Steehmeyer. They have money due which they cannot get at present. The claims must follow a routine in the Fourth Auditor's office, and, if I am not mistaken, an act of Congress is necessary."

erintendent Porter Will Consult Free Traders-Collecting Mortality Statistics. WASHINGTON, July 25 .- Before the scope of the labor and manufactures work of the census is decided on, Superintendent Porter will submit to free trade professors for criticism and suggestions, in order to make the report comprehensive and free from suspicion. The collection of statistics of recorded indebtedness is likely to give trouble. In collecting mortality tistics districts will be marked cities instead of sticking to ward lines as formerly. For example the tenement house population can be included in certain districts and the statistics in certain districts and the statistics will show the death rate prevailing there and will bring out in clearer form than under the old system the effect upon health of this method of living. B. R. Carroll, the editor of the New York Independent, will have charge of the work of collecting religious statistics.

INPECIAL TRANSPRANTO THE DISPATCHA

NEW YORK, July 25 .- About five weeks

ago Dr. R. Hunter Duncan, the young surgeon of the steamship Colon, returned from

Aspinwall so sick that he went to the house

of Captain W. H. Thompson, at 173 Hancock street, Brooklyn, to be nursed

by Miss Margaret Mary Thompson the eldest daughter of Captain

Thompson, to whom he was engaged. The health authorities pronounced his disease yellow fever, and brought charges against Dr. J. B. Bogert, his attendant physician, for concealing a case of infectious disease.

The house of Captain Thompson was placed under strict quarantine, and he, as well as Surgeon Duncan and Dr. Bogert, were kept close prisoners for three days, when it was decided that Dr. Duncan did not have

yellow fever. In a week or so he fully re-covered. Just as soon as Dr. Bogert was allowed to leave Captain Thompson's house he hurried to Montreal and got married.

Another actor in the episode has also married, Miss Thompson, who nursed him

through his alarming illness, having to-day become the wife of Dr. Duncan. Directly after the eeremony Mr. and Mrs. Duncan sailed for Europe on the Germanic.

WASHINGTON, July 25 .- The Treasury PHOTOGRAPHER SUED AS DOCTOR Department to-day decided an interesting question in regard to the classification of so-called garnetted wool waste. The ques-tion arose out of an appeal by J. Wild & Since He Claimed to Be Such and Talked of Lungs and Liver,

the Evidence.

Photography is alleged to be a poor science to apply for the cure of typhoid fever. Hence Widow Fisher sues Photographer Bower for causing her husband's death by malpractice under the claim that he was a physician, and that the patient's lungs and it has accumulated \$100,000.000 of assets, liver were only slightly affected.

Mrs. Sosephine Fisher yesterday entered suit against Charles Bower for \$20,000 damages. Mrs. Fisher is the widow of Frederick Fisher, who died Sunday, July 21. Mrs. Fisher states that early in July be husband took ill. Bower, a photographer, represented himself to be a physician, specially skillful in such diseases as ailed Mr. Fisher. He said that his lungs and liver were affected and he could easily cure him. Upon this assurance Bower was allowed to treat Fisher. He had said that Fisher was not seriously ill, but notwithstanding he grew worse rapidly. Mrs. Fisher desired to call another physician in consultation, but Bower said it was unneces-sary, and reassured them. Mrs. Fisher, however, did call in another physician. He at once declared Fisher to be suffering from typhoid fever and not a disease of the lungs and liver. He said he was then beyond human aid and he could do nothing for him. Fisher died on July 21. An autopsy, it is claimed, conclusively showed Fisher had been suffering from typhoid fever; also that the treatment by Bower would be in the highest degree harmful to a person suffering from typhoid fever, and that Bower, in his treatment, conducted himself in an ignorant, unskillful and negligent manner, thereby causing the death of Fisher.

It was further claimed that Bower, though he had represented himself to be one, was no physician at all. Mrs. Fisher asks for \$20,000 for herself and child. David S. McCann, Esq., is her attorney. however, did call in another physician. He

N. A. Means, Esq., commissioner in the divorce case of Catharine Cross against Edward R. Cross, a glassblower of the Southside, yesterday filed the testimony taken in the suit. Married in 1871, Cross was deserted by his wife in 1886, on account of beatings that were a part of the husband's caresses. On one occasion, in 1884, it is testified that when their child was 1884, it is testified that when their child was lying dead in the house, he came home drunk, and, because there was nothing to eat in the house, raised a disturbance, almost threw the dead child out of its coffin, and ended by putting Mrs. Cross out of the house and throwing her clothes after her.

The testimony was also filed in the divorce cases of Fauline Knobloch against George Knobloch and Maggie L. Ziegler against John N. Ziegler.

000,000. Mr. James Brown, a well-known citizen of Allegheny county, formerly residing in Glenwood, but who has for the past II years lived in Hampton township, has passed through an eventful experience. His disease, although not unlike that of many others, assumed certain conditions that gave him great alarm. He had a continuous dropping of offensive matter from his head into the throat, where it assumed a dry, tenacious condition, rendering it almost impossible for him to raise it out. There was a ticking sensation in his throat, and, as the poisonous matter extended down into the bronchial tabes of his lunga, he coughed badly both day and night. He felt great tightness and a stuffed-up condition in his throat and lunga. His breath became very whort, and, as the disease further preyed upon his system, he lost flesh and became very weak. He had pain over the eyes, poor appetite, coated tongue and belching of gas after esting. Although 64 years of age, he received treatment from the physicians of the Catarrh and Dyspepsia Institute, at \$23 Penn avenue, and he became entirply cured of these diseases.

He adds: "I am glad to give my testimony for publication, as I have been cured as above stated, by the physicians of the Catarrh and Dyspepsia Institute. "Jamss Bhows."

It Might Have Been Worse. Not long since, Mr. Charles M. Elchenlaub, an Allegheny gentleman, who lives at 189 Federal street, was made to fully realize the fact that the aches and pains he experienced in different parts of his body were not without a cause. The high-colored urine, pain across the small of his back and kidneys, together with other unmistakable signs, warned him that his condition was fast approaching Bright's disease. The sharp, burning pain in his feet gave him untold misery. In fact, his disease grew from bad to worse, until he was unable to walk or step on his feet without experiencing great pain. He also frequently felt pain under his shoulder blades and different parts of his body. He lost his appetite, and he felt a full, bloated feeling after meals. As the little food he ate termented in his stomach he had much eructation of gas.
